

A silhouette of a police officer in profile, facing right. The officer's head is tilted slightly down. Behind the officer's head is a bright, multi-colored light source (red, blue, white) that creates a large, circular lens flare effect. Several smaller, colored light spots (yellow, blue, orange) are visible in the lower left area of the image.

- Fire departments
- Emergency medical services
- Construction/property maintenance companies
- Private security firms
- Institutional security departments
- Municipalities/street departments
- State Departments of Transportation
- Federal agencies
- Wright-Patterson Air Force Base, Security Forces Squadron

## WHY CHOOSE P&R?

- **Fleet uniformity.** First responders never have to fumble around for the right switch. P&R knows a uniform fleet is a safer fleet.
- **Your choice of manufacturers and products.** So you can get exactly what you want.
- **Everything done your way.** We consult with you on optimum placements and designs, and collaborate on every step.
- **Systems wired neat and clean, inside and out.** Our attention to detail is a point of pride that makes troubleshooting fast – and upgrades easy.
- **Fine-tuning on demand.** Want to adjust something you see during installation? Often, we'll make your requested fix right on the spot.
- **No worries about intermittent outages or system failures.** Vehicles don't leave our shop and return to service unless the equipment meets every spec – and passes every test.
- **Repeatable designs.** Want to outfit this year's vehicles just like last year's? P&R keeps installation photos on file for reference during future fleet expansions, upgrades and maintenance.
- **The most experienced team around.** P&R custom-builds systems all day, every day. Our technical team members train continuously on new technologies, so their product knowledge is unsurpassed.

“P&R stays up-to-date with technology to make sure we're using the latest lightbars and other products to keep our deputies safe. They know what other law enforcement agencies are doing, and what's working. I've got three vehicles at P&R right now.”

*– Mike Simpson, Sheriff,  
Preble County, Ohio*

“P&R outfitted our new utility pickup for EMS calls. Whatever I asked for, they did it. Everything works the way it's supposed to, and the setup is perfect for us – just the way we wanted it.”

*– Ron Bechstein Jr., Chief,  
Central Joint Fire District,  
Portage, Ohio*
